

ITS cordially invites IT Leadership, Management & Staff to an

Open House

Thursday, December 4

Noon to 5:00 pm

Room B-110, State Office Building

Refreshments will be served.

**Did
You
Know?**

- You can view and use individual information in the Utah Master Directory (UMD).
- ITS' new JDBC connector will enable you to directly access ADABAS with your Java applications.
- ITS continually services and maintains the highest level of WAN and WIFI Network services.
- ITS has a new products and services Web site.
- ITS will be demonstrating a myriad of high-tech gadgets that our technicians install in Utah patrol cruisers.
- ITS has new on-line chat support for its Customer Support System.
- You can view your own neighborhood with Automated Geographic Reference Center (AGRC) sophisticated mapping services.
- ITS monitors and provides live data about the performance and availability of ITS networks, servers, databases, etc.

Come learn about these innovations in a series of hands-on experiences and live demonstrations.
